SOURCE DESCRIPTION:

On February 24, 2005, the Division for Air Quality received a permit renewal application from Greif Industrial Packaging & Services to operate a metal drum manufacturing plant in Florence, Kentucky. This application was determined to be complete on December 2, 2005. The permitted points are two drum manufacturing finishing lines. VOC emissions from the finishing lines are voluntarily limited by the permittee to less than 90 tons year. The source is major for HAP emissions.

PUBLIC REVIEW:

On September 7, 2006, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *The Boone County Recorder* in Florence, Kentucky. The public comment period expired 30 days from the date of publication.

Comments were received from Greif International Packaging & Services on September 25, 2006. Minor changes were made to the permit as a result of the comments received, however the Division has concluded that the proposed operation will comply with all air quality regulations and requirements.

U.S. EPA REVIEW:

The U.S. EPA was notified of the issuance of the proposed permit on October 31, 2006 via e-mail. The comment period expired 45 days from the date of e-mail. No comments were received during this period. The permit is now being issued final.
